We feel that with increasing interest in A2 Guernsey milk and its benefits, especially within Autism, that a site dedicated to information and the availability of Guernsey milk is required.

Recent reports on Channel 5 have led to more consumers looking to source Guernsey milk and although there are lists of producers on other Guernsey websites those sites are primarily talking about the cow rather than the product. This site is here to provide all of the necessary information about the milk, the products and where to buy it. Click here to see what Channel 5 news had to say.
